

SYSTEM, METHOD AND COMPUTER PROGRAM PRODUCT FOR REGIONAL RESTRICTIONS IN A SUPPLY CHAIN FRAMEWORK

ABSTRACT

5

A system, method and computer program product are disclosed for imposing regional restrictions in a supply chain management framework. A plurality of distribution centers of a supply chain are displayed utilizing a graphical user interface. A free on board (FOB) point associated with a region in which the distribution centers reside is identified.

10 The distribution centers are then forced to use the FOB in response to a user action utilizing the graphical user interface.
